Born and raised on a farm on Mallory's World, Alice Vander apparently never set out to become a MechWarrior in the Swordsworn, but instead had the responsibility thrust upon her when her older brother, Micheal Vander, was killed in battle by Dragon's Fury raiders in late 3132. Alice, already an accomplished AgroMech pilot and motivated more by a sense of revenge than anything else, virtually begged for admittance into the Prince's Men, Duke Aaron Sandoval's newest regiment. Though politically sympathetic toward the Duke's vision of reclaiming The Republic in the name of House Davion, and nominally considering herself a displaced citizen of the Federated Suns, Alice's core motivations are hardly political. In fact, her love of the Federated Suns and the Swordsworn

faction pales in comparison to her hatred of the Dragon's Fury and, to a lesser degree, the Draconis Combine as a whole. This attitude has not been lost on her superiors.

In battle, largely because of her previous training at the helm of a civilian 'Mech, Alice prefers to close with the enemy to the point where she can unleash a devastating melee attack. This preferred tactic has already cost her one 'Mech, a vintage Axeman, but her willingness to charge into battle has prompted her superiors to give her a Vulture for her new assignment. Outside the cockpit, Alice is another person, reserved to the point of silence. She rarely speaks to those outside her own command, and she rarely socializes, even among them. Her withdrawn demeanor stands out among the boisterous, cavalier men and women of the Prince's Men regiment, many of whom suspect she volunteered too eagerly to serve, without fully realizing the horrors of modern warfare.

The Vulture is effectively a poor Clan's *Mad Cat*, and was the preferred heavy 'Mech of the Ghost Bear Clan during the invasion of the Inner Sphere. The Vulture features several lasers and a pair of heavy missile racks designed to offer maximum firepower at all ranges. Alice's 'Mech, serial number GB773-00B, began its career as part of the fighting arm of the Ghost Bear (now Rasalhague) Dominion, and was among the Ghost Bear forces that took part in the long campaign to destroy the Word of Blake during the Jihad. The Bears, among some of the fiercest combatants in that campaign, drove as deep as the Terran system in their effort to liberate the worlds the Blakists had seized in their Jihad. GB773-00B was found among many Ghost Bear 'Mechs struck by Blakist neutron weapons during the liberation of Cebalrai, and was absorbed into Devlin Stone's growing army in the campaign to destroy the Blakists. Assigned to the militia forces in Prefecture IV, GB773-00B naturally was claimed by the Swordsworn faction after the collapse of the HPG network. Alice has named the 'Mech "Vendetta" as a reminder of who she is and why she's in its cockpit.
